

The purpose of this comment is to highlight the importance of maintaining 94.3 K-LOVE on the air in the Chicago area.

This station is of great value to the community as it provides quality family programming.

This station is unlike any other in our market due to the fact that as parents we do not have to worry about what our children will hear.

I know that my family and I listen to 94.3 K-LOVE everyday and it would sorely be missed if replaced by a

LPFM station that does not provide the family oriented, safe, quality programming we now enjoy.

94.3 K-LOVE is the only radio station in the area that supports wholesome values and has a positive and encouraging

impact on communities where it is heard. Allowing a LPFM station in its stead would be of great detriment to the listening population

in any area across America where K-LOVE can be heard.
